Irrigation - major - Hospet taluk - Narayanadevarakeri village and tank - supply channel - silt clearance - estimate for Rs. 820/- Execution at Government cost - sanction requested.

The tank at Narayanadevarakeri, Hospet taluk is a Public Works Department tank, managed by the village Panchayat. The Executive Engineer, Bellary has prepared an estimate for Rs. 820/- for silt clearance in the supply channel to this tank. Notices were issued to the ayacutdars to clear the silt and to keep the channel in order. They say that the channel is seven miles long and most of it lies in the limits of other villages and have expressed their inability to travel long distances from their homes and do the work. They request that the work may be executed at Government cost. I consulted two Sub Collectors and they say that the execution of the work involves considerable labour and expense on account of the length of the channel; and recommend that the cost may be borne wholly by Government. There has been a long and continued neglect with the result that a large amount is required to put the channel in order; and the case

has

has to be dealt with under B S O 86-5 sub para 3. I submit herewith the estimate prepared by the Public Works Department and request that sanction of Government may be obtained under B.S.O. 86.5 subpara 3 for the execution of the work at Government cost.

Kudimaramath - Hospet taluk - Narayanadevarakeri village and tank - supply channel - silt clearance - Estimate for Rs. 820/- Execution at Government cost - further report submitted.

Ref: Board's Ref. M. No. 2377/37-1 dated 7th May 1937.

The ryots express their inability to clear the silt in the first two miles of the channel now. They are however willing to keep the whole length of the channel in good repair in future by Kudimaramath.

Remissions of Rs. 1654-8-0 in Fasli 1345 and Rs.1614-3-0 in Fasli 1346 were granted owing to the insufficient supply in the tank also owing to the silting up of the supply channel. The loss of revenue due to the silting up of the channel may be roughly estimated at Rs. 800/- a year.

JS

To JS.

Please see the letter from the Collr. of Bellary at pgs 1-24.

2- The channel is too long and there has been continued neglect of kudimaramath with the result that the present silt clearance work has become laborious and expensive. The ryots request that the work may be executed at Govt. Cost and the Collr. supports their request.

3- There appears to be no doubt as to the ryots' liability for executing the work by kudimaramath. For orders whether the Collr. may be asked to report whether it will be possible to get at least a portion of the estimate amt. from the ryots or from the Panchayat which manages the tank.

2 [Vide para 11 of the Rev. Selr Descriptive Memoir and p 53 of the T.R.S Descriptive memoir put up] also the report at p 7 of ⊙ The Collr says taking clear loss of revenue actual a probable or a normal of silting. How long is the channel - the ? will be seen to in the plans when kudimaramath is alleged
